(This essay is read by a member of the Nursing Admissions Committee)**

The Kentucky Board of Nursing may delay or deny anyone who has been convicted of a felony or a misdemeanor from taking the nursing licensure examination. Some clinical affiliating agencies require a criminal background check and drug screen of nursing students. These agencies have the right to deny a student's clinical placement at their facility based upon findings of the criminal background check or drug screen. Should this situation occur, the Division of Nursing does not guarantee the student's placement at an alternate clinical site and the student may need to withdraw from the program.

Progression in the nursing program is dependent on completion of required activities by deadline dates, adherence to nursing program policies, minimum standardized testing scores, completion of required remediation, 'C' or higher grade in pre-/co-requisite and nursing courses, and final 'Satisfactory' rating in the clinical portion of nursing courses.

It is the policy of the College that no student shall be excluded from participating in, be denied the benefits of, or be subjected to discrimination in any program sponsored by the College because of gender, race, religion, sexual orientation, age, handicap, or national origin. Students with disabilities requiring accommodations should contact the Disabilities Resources Office located in the Student Services Counselor's Office. Accommodations are made on an individual basis according to documented need.

I affirm that all information supplied in the application is complete and accurate. I understand that withholding or giving false information will result in my being ineligible for admission to the nursing program. My signature indicates my understanding of the statements on this application.
